The Girl of the Period

## THE GIRL OF THE PERIOD.

Mr. David Wright, introducing the Government's programme for improving agriculture, said: "The woman is our hero. This picture shows how Mrs. Alexander Smith, a Dorset way worker, is helping the country at the present. Though only 35, she can do most kinds of field work, and has won many prizes, including the champion prize offered all women, as represented by the Government." —Continued from page 30.

THE GERMAN "ZEPPELIN"

The airship plays the role of the hawk. Scouring the globe the airship, its arm is able to see a submarine when submerged, it sees too soon, and even when it is a considerable distance below the surface it may be detected by the reliable track of mariners which a submarine never strays across—Hence the "Zeppelins."

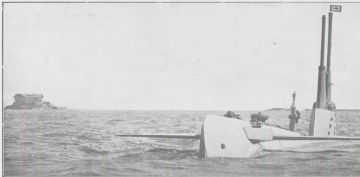

L. Cpl. DOUGLAS HERBERT HARRISON, BRISTOL

Eldest son of Mr. R. A. Harrison of Warwick, who has just returned from the Front, has been of the Military Medal for gallantry collected in France. Two more he received in the same way. He was serving in the London Central Division of the Military Hospital at Wandsworth where he has undergone an operation.

GUNNER GORDON FENNEL

Gunner Fennell, 2nd Battalion, was with the army that captured Berlin. One son of Mr. Fennell, of Halloway, Kent, France, had been awarded Military Medal.
